

COMBINATION SIREN & SPEAKER

An economical combination 30W amplifier and speaker.

The new heavy-duty WSSC30 siren features hands-free operation, Scan-Lock™ multiple warning tones and air-horn override capability. Designed for ease of installation into Emergency Service Vehicles that have limited space or which do not require a 100W siren system such as motorcycles or occasionally used lease vehicles. Where a higher power output is desirable two WSSC30 sirens may be synchronised together using an optional WSSC30HK harness kit.

FEATURES:

- Heavy-duty, compact rugged aluminium housing with water resistant connectors.
- Hands Free operation allows the driver to turn the siren ON, activate various siren tones and turn the siren OFF from the vehicles road horn button. Hands free control allows the driver to control the siren system without taking his eyes off the road and hands off the steering wheel.
- 4 modes of operation selected by DIP switches at the rear of the unit:

Mode 1: Instant HF 2 cycle with AIR HORN override. Default cycle tones wail & yelp.

Mode 2: Instant HF 3 cycle with AIR HORN override. Default cycle tones wail, yelp & piercer.

Mode 3: Tone 1 & tone 2 selected by individual latching switches. Tone 1 has priority over tone 2 if both switches ARE activated. Default tones Wail & Yelp.

Mode 4: Tone 1 with AIR HORN override. Default tone 1 Wail.

- Scan-Lock™ siren tones available: Wail, Yelp, Piercer, Hi/low, Y249, Warble, Woop, Tri-tone, Alt. wail & Martin tone.
- Two sirens can be synchronised together using an optional WSSC30HK harness.
- Supplied with 2 way "L" mounting bracket.
- Requires 2 customer supplied switches.
- Maximum current draw 2 amps @ 15VDC.
- 138mm (W) x110mm (H) x118mm (D)
- Weight 1.2kg

Part Numbers:

WSSC30 - 12V full function amplifier & speaker.

WSSC30HK - Harness kit to synchronise two WSSC30.
